**Requirements to Participate:**

1. Parental permission slip: Prior to participation, students must return this slip indicating adequate health insurance and must meet requirements of the policy on sports physicals.

2. Sports Physical: Prior to participation in a school sport, students must return a signed physical. If a student has a physical at the beginning of the year, they are covered for their remaining years at CMS. If an injury occurs, the student will need a doctor's note to return to active playing status.

3. Eligibility: Prior to participation, students must be in good academic and behavioral standing. All candidates must meet the RSU #18 eligibility requirements. A pupil shall be ineligible to participate in any interscholastic middle school athletic contest or non-athletic activity who does not meet the eligibility rules established by the Board of Directors.

4. Home-schooled students are allowed to participate in extracurricular and co-curricular activities, as long as the permission slip and sports physical are handed in.

**Attendance:**

1. Students must be at school the majority of a day in which there is a game or competition, unless excused. The majority of the day is defined as 5 or more periods. Any exception, must be cleared by the principal or his/her designee. Pre-arranged tardiness or absences may be basis for exception.
2. If students are dismissed with an illness, they will not be allowed to attend practice, games or competitions.
3. Students suspended from school will not be allowed to participate in practices, games or competitions during the suspension.

**Behavior:**

Students participating in extracurricular and co-curricular activities are expected to adhere to all school expectations. While any participant is on in-house or out of school suspension from school due to a behavioral transgression, the student will not be allowed to attend or any sessions of the activity as a participating member.

**Academics:**

The expectation is that to be eligible for extracurricular/co-curricular activities the student must be passing all courses in which he/she is enrolled. A passing grade is defined as a 60% or higher.

Occasionally there are circumstances when a student may find himself/herself in academic jeopardy. The following will be the process for determining academic eligibility. At any time when a student is ineligible, he/she may not participate in extracurricular/co-curricular activities. This includes practices, games, rehearsals, performances, or competitions.

- a. The principal or designee will check grades at the end of each quarter and approximately mid-way through the quarter. The dates of eligibility checks will be set by the principal.
- b. At the time of a grade check, if a student is failing two or more subjects they are immediately ineligible until the next check.
- c. If a student is failing one subject, they will be put on probation until the next grade check. During a probationary period, the student may participate in games and practices, but students are encouraged to take whatever time is necessary to get their grades up to a passing level.
- d. If on probation, the student must be passing all classes to remain eligible at the next grade check. If a student is failing one subject for two consecutive grade checks, the student will be ineligible until the following grade check. This does not have to be the same subject.
- e. A student who misses a tryout period for a cut sport because they are ineligible, cannot join the team if and when they become eligible. If the student becomes eligible and the sport is an open, non-cut sport, the student may join the team but will not compete in games until they have completed a certain number of practices, as decided by the principal or designee.
- f. A withdraw with failure “WF” is considered the same as failing the course. A student cannot withdraw with failure to avoid losing eligibility. Eligibility is determined on the date when report cards are scheduled to be distributed.
- g. Semester and / or final grades for a course are not used in determining eligibility. A student enrolled in a virtual high school course(s) must provide the principal’s office with the grade or status of performance from the instructor in the outside course, prior to report cards being distributed at the end of each quarter.

**REGIONAL SCHOOL UNIT NO. 18**

**FILE: JICH**

**DRUG & ALCOHOL USE BY STUDENTS - STUDENT SUBSTANCE ABUSE**

Regional School Unit No. 18 recognizes that illegal drug and alcohol use and abuse are harmful to the individual. It is the District's philosophy to educate students about the detrimental effects of alcohol and drug use and abuse and deter the use and possession of alcohol and drugs. The purpose of this policy is to establish age appropriate consequences that hold the student accountable for their decisions, to maintain a safe environment for all students and to address violations of the School Board policy.

A participant’s request for acceptance of assistance in addressing chemical use, abuse or dependency will not adversely affect that student’s attendance at school or participation in school activities. School personnel will work cooperatively with parents and others entrusted with the care of the student to ensure the health and safety of the student population. The student may not use the voluntary referral procedure merely to circumvent the consequences that would otherwise be implemented due to an on going or impending investigation.

**I. PROHIBITED CONDUCT, SUBSTANCES**

Students are prohibited from consuming, possessing, furnishing, selling, receiving, buying, manufacturing or being under the influence of prohibited substances before, during and after school hours, at school, in any school building, on any school premises, in any school-owned vehicle or in any other school-approved vehicle used to transport students to and from school or school activities, off school property at any school-sponsored or school-approved activity, event or function (such as a field trip or athletic event) where students are under the jurisdiction of the School Unit, or at any time or place if the conduct directly interferes with the operation, discipline or welfare of the schools.

The term “prohibited substance” shall include, but not be limited to:

1. Alcohol;
2. Scheduled drugs (as defined in 17-A M.R.S.A. § 1101);
3. Controlled substances (as defined in the federal Controlled Substances Act, 21 USC § 812);
4. Any performance-enhancing substance listed on the Maine Department of Health and Human Services' banned substances list and any other substance which is illegal in Maine or the use of which is illegal for minors;
5. Prescription drugs not prescribed for the student and/or not in compliance with the Board's policy on administering medications to students;
6. Any substance which can affect or change a student's mental, physical or behavior pattern, including but not limited to volatile materials such as glue, paint or aerosols (when possessed for the purpose of inhalation) or steroids;
7. Paraphernalia – implements used for distribution or consumption of a prohibited substance;
8. Any look-alike drug or substance that is described as or is purported to be a prohibited substance defined in this section.
9. Electronic vaporizer devices, including but not limited to e-cigarettes, vape pens, or similar devices;

**I. CONSEQUENCES**

Any violation of the terms of this policy shall constitute sufficient grounds for student consequences, including suspension or expulsion from school, at the appropriate discretion of the administration and the Board. Law enforcement authorities shall also be notified of violations of this policy. Because participation in extra-curricular/co-curricular activities is a privilege, students who participate in co-curricular or extracurricular activities who violate this policy are subject to additional rules and sanctions. (See Section III .)

The procedures that follow are intended as guidelines. The administration reserves the discretion to impose consequences for any violation of this policy up to and including a recommendation for expulsion. ### III. PARTICIPATION IN EXTRACURRICULAR AND CO-CURRICULAR ACTIVITIES

RSU 18 realizes the value of extracurricular and co-curricular participation as a positive alternative to substance use. It is, therefore, the policy of the District that students participating in extracurricular activities, including all athletic teams, clubs, and school sponsored co-curricular activities, sign and abide by rules, which prohibit violations of the Board's substance abuse policy at any time or place from date of pre-season practice in August through final tournament or co-curricular event in June. If a student/parent do not sign an acknowledgement of the rules, this policy will still be enforced.

In addition, students will be subject to consequences if it is determined that they are present at a party or any location where drugs are being used or underage drinking is taking place, and they do not leave when they become aware of such activities.

Participation in extracurricular/co-curricular activities is considered a privilege, and students who choose to participate in such activities are held to a higher level of responsibility. Students who represent RSU 18 are expected to conduct themselves at all times and in all places in a manner which reflects positively on the school and its member communities.

Upon verification of violation as a result of administrative investigation, the following consequences will occur. These consequences are in addition to consequences for the underlying policy violations.

For the purposes of this policy, participation in an activity begins with the first day of participation in any meeting, practice, try-out, pre-season activity, contest or performance and continues through any concluding activity such as an awards recognition event. If a 9-week suspension is not completed by the end of a school year, the suspension carries over into the next school year. Students who are not eligible during the pre-season and/or tryout period will not be allowed to join any extracurricular or co-curricular activity during the season.
4. Students are required to meet with a substance abuse counselor at parents' expense for a risk assessment and an additional three (3) times in order to be eligible to participate in future extracurricular/co-curricular activities.
5. Parents are encouraged to attend an educational program on alcohol and drug abuse.

certificate of participation, "letter," or any other extracurricular/co-curricular awards; and continue to hold any leadership role and/or elected office during suspension.

6. The student cannot attend any awards ceremony during suspension; receive a certificate of participation, "letter," or any other extracurricular/co-curricular awards; and continue to hold any leadership role and/or elected office during suspension.
